Acceptance Criteria

This is the acceptance criteria of the Munarra Academy Partnership project of team koala.

- The acceptance criteria follows this format: **Given** [condition], **When** [something happens], **Then** [result]
- For the **Acceptance Criteria ID**, the format is given by {user story ID}_{acceptance_criteria number}

Epic ID	User Story ID	User Story	Priority	Acceptance Criteria ID	Given	When	Then
1	1	As an admin, I want to add/delete an account, so that I can control the access of users.	Medium	1.1	I have logged in and on user page.	I find the user I want to delete and click the 'delete' button at the end of the user information.	I can delete the user accounts to maintain security of the website.
				1.2	I have logged in and on user page.	I want to add an user, I click the add button and input tha user id of the user I want to add.	I can add the user accounts to maintain security of the website.
	2	As a user, I want to login with my account, so that I can start to use the system.	High	2.1	I haven't logged in and on the start page.	I input the credentials and click the login button at the bottom.	I can login into the account successfully and see the homepage.
	3	As a system user, I want to edit my profile, so that I can update my personal information.	Medium	3.1	I have logged in and on the profile page.	I input the relevant informations and click the update button at the bottom.	I can change my profile information successfully.
2	4	As an admin, I want to mange the radio station, which includes switching on and turn off the radio station, so that I can display the major functions of the radio station.	High	4.1	I am on the system overview page and it says the radio station is off.	I click the "turn on" button at the bottom of line "the radio station is currently off".	I can display the radio station along with all of the functions
				4.2	I am on the system overview page and it is displaying all functions.	I click the 'turn off' button at the top right corner.	I can stop the radio station from accessing by everyone.
3	5	As an admin, I want to be alarmed when power is lower than a threshold, so that I can perform safety actions.	Medium	5.1	The radio is turned on.	The power is lower than a threshold.	The system sends out a pop-up window and a message to admin's cellphone indicating that the voltage is too low.
	6	As an admin, I can set an alarm threshold, so that I can be alarmed when the power is lower than the threshold.	Medium	6.1	I have logged in and on the setting page.	I click the 'threshold' botton and set up the appropriate value.	The alarm threshold is set and the system will complete the work according to this value.
4	7	As an admin, I want to see the voltage of the system, so that I can monitor the power level of the radio.	High	7.1	I am on the system overview page.	The radio station of the system is on.	I can see the voltage of the system on the top of the overview page.
5	8	As a system user, I want to switch between different channels, so that I can listen to the channel I like.	Medium	8.1	I am on the system overview page, and the radio is on.	I click the 'Next' botton on the right side of the display channel.	I can siwtch to a different channel.
6	9	As a system user, I want to adjust the volume of the radio, so that I can listen to it at a suitable volume.	Medium	9.1	I have logged in and on the setting page.	I click the 'volume' botton and set up the appropriate value.	The volume is set and the system will complete the work according to this value.
	10	As a system user, I want to push a button and start talk to others, so that I can communicate with other club members on a certain channel.	High	10.1	I have logged in and on the system overview page.	I click the 'Push to Talk' botton and start to talk or other club members click the botton to talk.	Other club members can hear what I'm saying or I can hear what other club members are saying.
